25 YEARS

Nobody prints a large color graphic...

...without needing to display it. Whether it be a sign, framing or commercial need, our goal is to enable more people to mount, laminate and display their prints. We fabricate products which eliminate several steps and make the mounting and laminating process easier.

Because we are a fabricator, we are able to customize the boards you need for your particular job. Whether it be a special film, size or even a shape, we have the capability to do this quickly and economically saving you time and money.

As we look back over the 25 years Artgrafix has been in business, we see many changes in products and technology, but the factors which remain important are a constant.

Our keys to success are....

- **Quality products and services**
- **Competitive prices**
- **Quick delivery**

Thank you again for your business and we look forward to speaking with you soon.

Jeff Stover and the Artgrafix Team

Why Mount and Laminate

Mounting your print to a rigid board and laminating the surface with optically clear films not only enhances and protects your print, it converts the print into a sign or display. By making prints easier to view and protecting

them from the elements, mounting and laminating creates solid value and profit opportunities.

Convert prints to displays

Banners

Outdoor Signs

Training Displays

Custom Framing

Engineering Prints

Trade Show Graphics

Photographic Mounting

And more.....

We Feature Three Laminating Systems

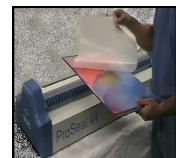

The One Pass Hot Pouch Mounting & Laminating System

The easiest system to use – see pages 4 through 8

Pouch Boards for both indoor and outdoor applications

Featuring the Phoenix laminator for prints up to 44" wide

Film and Pouch supplies for banners and flexible displays

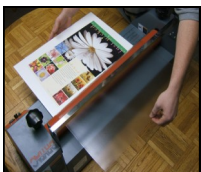

The Polar Cold Pouch and Sheet Fed Laminating System

For prints up to 32" wide—see page 10 through 14

Our lowest cost manual and electric roll laminators

Features our Polar Pouch Board for one process mounting & laminating

Wide range of supplies for indoor and outdoor applications

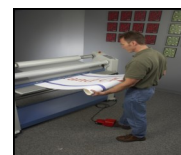

Multi-temperature production laminating systems

For prints up to 62" wide—See pages 15 though 17

We feature Seal and Drytac Equipment

Labor saving features for volume processing

Uses all roll and pouch laminating supplies

What to consider

...when buying a mounting and laminating system

Buying a wide format laminator can be a significant expenditure. If you are mounting and laminating prints up to 20"x30" in limited quantity, you can achieve professional results doing those by hand. **For larger prints, a laminator makes this process faster and easier, and with more consistent results.**

Here are some points to consider as you choose which system is best.

Your prints... What is the widest print you can produce? A rule of thumb is to **match the size of the laminator to the size of your printer.**

Your displays... Make a list of the displays you want to make similar to the those on the facing page as some **require a specific type of laminator.**

Your volume... All laminators are capable of running all day, but if you are consistently laminating a larger number of prints, certain features can make changing roll Films and production more efficient.

Generally for laminating up to 20 prints a day, a basic laminator with lower cost and speeds will work well.

Other Factors... Consider ease of use and availability of training if this is the first laminator. Warranties, field support and space considerations are also important. We will be happy to answer these and any other questions you have.

Our goal is to have you select the right laminating system

DEMCO Phoenix Heavy Duty Pouch / Roller Laminator

Expanded laminating capability and designed to grow with you

The Phoenix System is Easy to use

Set laminator to materials thickness

Insert print into pouch board or film

Insert pouch into Phoenix Laminator

Remove & Display

The **Phoenix 44 Laminator** is designed to work with all pouch boards and film pouches. It is packed with features to not only make laminating fast and easy, it can also use roll films to save you money on large jobs. **The Phoenix features:**

- **Works with boards up to 1/2" thick**
6 pre-set thicknesses work with all standard boards
- **Two pre-set speeds which both work with all pouch boards**
A slow speed for thicker papers and a faster speed for standard films
- **Two pre-set temperatures**
One for pouch products and one setting for roll films
- **One control knob to raise and lower the roller**
Keeps the rolls always in parallel position
Adjust height precisely and quickly
- **Large 4" diameter roll and heavy duty heating system**
Works with films up to 10 mil thick
- **Clear Front Cover for safety**
Let's you view your work as it is being processed
- **Compact design only 18" Deep for table-top use**

To Use all Mounting Boards

Place Print on Mount Board

Place Cover Sheet over print with flap over end of Board

Insert mount board into laminator

Remove from Laminator, Trim and Display

We can custom make pouch board the size and finish you need

Specialty Pouch Boards

ACCENT EDGED POUCH BOARDS

Ready to Display Pouch Boards with finished laminate edges

Mount and laminate in one pass with a board with laminate edges on all sides.

With our unique hinged laminate, place your print between the edged heat activated adhesive board and the laminate and process like any pouch board. Choose from black, white, red, blue and wood edges.

Use for posters as an alternative to framing and for signage for tradeshow, corporate lobbies, hotels and other areas requiring a finished presentation. Hard edges protect prints and always keep it looking new.

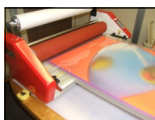

To Use

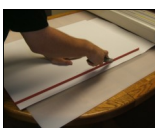

Place your print between the board and the laminate film

Position laminate hinged edge is 1" from the leading edge and the flap is under the boards

Insert Board in Laminator

Trim and Display your print

Accent Boards feature

- Boards are 1/2" smaller on all sides to facilitate trimming a flush 'plaque-style' finished look (full sized available)
- Hinged laminate is available in Gloss and Matte finishes
- Choose 1/4" thickness for ProSeal laminators
- Accent Pouch Boards can be used in any heated roll laminator

1/4" Thick Accent Pouch Boards (5/box)

Size	Mounting	Gloss	Matte
11" x 17"	\$ 49 (65620-)	\$ 65 (65420-)	\$ 75 (65425-)
18" x 24"	\$ 79 (65630-)	\$ 99 (65430-)	\$ 109 (65435-)
24" x 36"	\$ 159 (65640-)	\$ 189 (65440-)	\$ 199 (65445-)
36" x 48"	\$ 249 (65650-)	\$ 299 (65450-)	\$ 299 (65455-)

1/2" Thick Accent Pouch Boards (3/box)

Size	Mounting	Gloss	Matte
11" x 17"	\$ 35 (550612-)	\$ 49 (65320-)	\$ 55 (65325-)
18" x 24"	\$ 49 (550614-)	\$ 69 (65330-)	\$ 79 (65335-)
24" x 36"	\$ 85 (550616-)	\$ 109 (65340-)	\$ 119 (65345-)
36" x 48"	\$ 169 (550618-)	\$ 219 (65350-)	\$ 235 (65355-)

Specify Edge Color with the following suffix after the part number: Black (-BLK), White (-WHT), (Blue (-BLU), Red (-RED), Wood (-WD)

Accent Pouch Boards are your finished print size. Edged boards can be custom sized to meet your exact requirements.

Specialty Thickness Pouch Boards

1/2" Thick Pouch Boards

Pouch Boards made from 1/2" thick foam boards (bottom board in picture). Sturdy and very flat.. White only. Can not be used in a ProSeal laminator. (3/box)

Polar Pouch Board

COLD ADHESIVE BOARDS WITH ATTACHED LAMINATE FILM

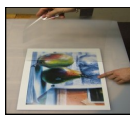

Use Polar Pouch Boards to easily adhere a print to a rigid board and laminate the surface of your graphic in one process. Patent Applied For.

Polar Pouch Boards feature

- Permanent cold pressure sensitive adhesives
- Gloss or Matte laminate film finishes
- 1/4" Smooth leading edge
- Lightweight and easy to trim

To Use Polar Pouch Boards

Lift film, position print and laminate film to print

Raise print and remove cover sheet to expose adhesive

Roll down to adhere laminated print to board

Display your mounted and laminated print

Foam – Polar Pouch Board

3/16" thick white foam board. Foam board has 'memory' which resists dents. Lightweight and easy to cut, the industry standard for framing prints and indoor display requirements.

Item	Size	Finish	Price
FPB2436G	24"x36"	Gloss	\$110
FPB2436M	24"x36"	Matte	\$110
FPB1824G	18"x24"	Gloss	\$ 69
FPB1824M	18"x24"	Matte	\$ 69
FPB1218G	12"x18"	Gloss	\$ 39
FPB1218M	12"x18"	Matte	\$ 39
FPB912G	9"x12"	Gloss	\$ 19
FPB912M	9"x12"	Matte	\$ 19

Gator® – Polar Pouch Board

3/16" thick white Gator board. Gator is made with a wood veneer surface and is durable with minimal bowing. Use for displays which will be handled repeatedly such as tradeshows and portable displays.

Item	Size	Finish	Price
GPB2436G	24"x36"	Gloss	\$250
GPB2436M	24"x36"	Matte	\$250
GPB1824G	18"x24"	Gloss	\$150
GPB1824M	18"x24"	Matte	\$150

Plastic – Polar Pouch Board

4mm thick white corrugated plastic board with gloss laminate for short-term outdoor use. Corrugated flutes run vertically and the standard sizes of cold pouch board are wider than high or 'landscape' when using sign holders.

Item	Size	Finish	Price
PPB3624G	36"x24"	Gloss	\$ 99
PPB2418G	24"x18"	Gloss	\$ 59
PPB1812G	18"x12"	Gloss	\$ 39

Metal 'H' Sign Stakes For corrugated boards. Sign stakes insert into the flutes of corrugated boards.

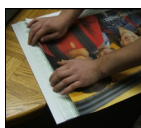

10"W x 30"H. 10/pack (US-F57438) **\$19.95**

Polar Pouch Boards can be custom sized to your requirements

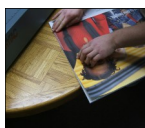

Self-Adhesive Mounting Boards

The easiest way to adhere a print to a rigid backing surface

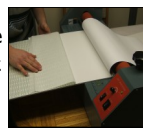

Peel back 1" of release liner

Attach the print to the board

Remove the Coversheet from board

Roll print through laminator

Self-Adhesive Foam Boards - Permanent Adhesive

Foam board with a pressure sensitive or "cold" permanent adhesive ready for mounting prints. Boards are 3/16" thick. **Smaller sizes in stock—see Document Mounting.**

Item	Size	Quantity	Color	Price
550446	20" x 30"	10	Black	\$ 59.95
550454	24" x 36"	25	White	\$ 159.95
550447	32" x 40"	25	White	\$ 239.95
550448	32" x 40"	25	Black	\$ 259.95
550461	36" x 48"	25	White	\$ 339.95
550460B	36" x 48"	25	Black	\$ 359.95
550463	40" x 60"	25	White	\$ 399.00
550453	48" x 96"	25	White	\$ 699.00

**NOTE
LARGE
SIZES**

Self-Adhesive Foam Boards - Repositionable Adhesive

Foam board 3/16" thick with a low tack repositionable pressure sensitive or "cold" repositionable adhesive which becomes more permanent over time. **Smaller sizes in stock—see Document Mounting.**

Item	Size	Quantity	Color	Price
550445	20" x 30"	10	White	\$ 49.95
550454-MED	24" x 36"	25	White	\$ 159.95
550447-MED	32" x 40"	25	White	\$ 239.95

Biodegradable Self-Adhesive Foam Boards - Permanent Adhesive

Foam board 3/16" thick with a biodegradable core and SFI certified paper liners. Coated with Ecomount water-based transfer adhesive for a 100% biodegradable mounting board.

Item	Size	Quantity	Color	Price
550454BD	24" x 36"	25	White	\$ 169.95
550447BD	32" x 40"	25	White	\$ 249.95
550448BD	32" x 40"	25	Black	\$ 279.95
550460BD	40" x 60"	25	Black	\$ 429.95
550463BD	40" x 60"	25	White	\$ 419.00

Self-Adhesive Foam Boards - Double-Sided

Foam board 3/16" thick with a permanent pressure sensitive or "cold" permanent adhesive coated on both sides. Double use saves money and makes double-sided signs fast and easy.

Item	Size	Quantity	Color	Price
550445DS	20" x 30"	10	White	\$ 79.95
550454DS	24" x 36"	25	White	\$ 229.95
550447DS	32" x 40"	25	White	\$ 349.95

Self-Adhesive Heavy Duty Ryno™ Foam Board

Denser foam board with paperboard surface for flat, strong needs. Permanent adhesive. Boards are 1/4" thick.

Item	Size	Quantity	Color	Price
550447R	32" x 40"	20	White	\$ 319.00
550461R	36" x 48"	20	White	\$ 419.00
550460R	36" x 48"	20	Black	\$ 499.00
550455R	40" x 60"	20	White	\$ 619.00
550464R	48" x 96"	12	White	\$ 639.00
550468R	48" x 96"	12	Black	\$ 699.00

For boards larger than 20"x30", we recommend using a laminator

Self-Adhesive Gator® Board

Wood surfaced Gator board with a pressure sensitive or "cold" permanent adhesive. Boards are 3/16" thick.

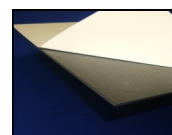

Item	Size	Quantity	Color	Price
550454G	24" x 36"	10	White	\$ 215.00
550467G	24" x 36"	10	Black	\$ 215.00
550459G	36" x 48"	5	White	\$ 220.00
550460G	36" x 48"	5	Black	\$ 220.00
550455G	40" x 60"	10	White	\$ 599.00
550456G	40" x 60"	10	Black	\$ 599.00

Self-Adhesive solid pvc Sintra® Plastic Board

Solid pvc Sintra board with a pressure sensitive or "cold" adhesive ready for mounting prints. Boards are sturdy 3mm (1/8") thick. Other thickness' available by special order. 10 boards per box.

Item	Size	Thickness	Color	Price
550454S	24" x 36"	3mm	White	\$ 189.00
550467S	24" x 36"	3mm	Black	\$ 199.00
550459S	36" x 48"	3mm	White	\$ 349.00
550460S	36" x 48"	3mm	Black	\$ 359.00

Self-Adhesive Corrugated Plastic

White corrugated plastic board with a pressure sensitive or "cold" adhesive ready for mounting prints. 4 mm thick. Other colors available by Special Order. When sizing, the 1st dimension is the width and the 2nd dimension is the height of the board. The "flutes" always run from the top to bottom vertically on the board for use with metal sign stakes (below). Available with adhesive on both sides.

Item	Size	Quantity	Price
CWSA1218	12" x 18"	10	\$ 42.95
CWSA1812	18" x 12"	10	\$ 42.95
CWSA1824	18" x 24"	10	\$ 64.95
CWSA2418	24" x 18"	10	\$ 64.95
CWSA2436	24" x 36"	10	\$ 99.95
CWSA3624	36" x 24"	10	\$ 99.95

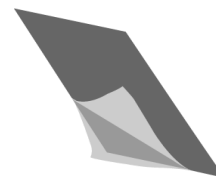

Metal 'H' Sign Stakes For corrugated boards. Sign stake inserts into the flutes of corrugated boards. 10"W x 30"H. 10/pack (US-F57438) **\$19.95**

Mounting and Laminating Films

Double-sided adhesive Sheets High quality double-sided film with silicon liners on both sides. Adhesive is hi-tack permanent. (25 sheets/pack)

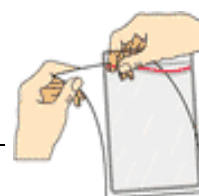

8.5"x11"	11"x17"	18"x24"	24"x36"	32"x40"
\$19 (970003)	\$39 (970004)	\$85 (970023)	\$145 (970024)	\$239 (500023)

Double-sided Adhesive Rolls and Laminate Roll Film on next page

Over-Laminate Films Rolls and Sheets Laminating film cut in ready to use sheets. Sheets are packed 10/box. **The roll films are liner free** and designed to work with Drytac JetMounter laminators. They are wound on a 3" core.

Size	18"x24"	24.5"x36.5"	25"x150"	31"x200"
Gloss	\$ 44 (GU1824)	\$ 78 (GU2436)	\$135 (180401)	\$165 (180408)
Matte	\$ 46 (SU1824)	\$ 89 (SU2436)	\$149 (180404)	\$175 (180409)

Sizes 32"x40" and smaller are double-boxed and ship via UPS

Pressure Sensitive Cold Films

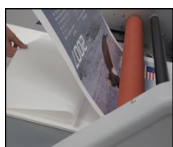

Cold Films are Acid Free. All film and adhesive components are non-acidic and meet the Library of Congress Standard for the storage of Artifacts.

Indoor Graphic Films

Acid Free Mounting Rolls (double-sided adhesive)

Choose from indoor lo-tack adhesive - good for most inkjet prints—or high tack adhesives designed for heavier papers and hard to stick boards such as Gator or Sintra pvc. White backed adhesive is also a high tack adhesive. **Optically clear and removable adhesives are permanent adhesive on one side and removable adhesive on the other side.**

All rolls are self-wound on 3" cores with paper liners except the optically clear adhesive which has a clear polyester liner on each side.

Acid Free Over-Laminate Roll Films

Premium over-laminating films with ultraviolet absorption additives for fade protection. The fade protection is four times that of an unprotected print. All films are a 3 mil vinyl film with a thick paper release liner which are easy to work with and control. Adhesives are permanent and are on 3" cores.

Satin Laminate	\$165 (PVCS2150)	\$249 (PVCS38150)	\$289 (PVC5S1150)

Wall and Window Adhesives

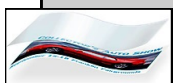

Films engineered with Microspheres of adhesive to allow prints to tick to wall surfaces and be removed without any damage to the wall and to be reapplied elsewhere. Popular for posters, training materials and displays which are used in different locations.

25"x200'	51"x200'
\$179 (MWA25200)	\$299 (MWA51200)

Write-on Wipe Off Laminate Film

Polypropylene film with optically clear permanent adhesive for write-on wipe-off applications with a dry erase marker.

25"x200'	38"x200'	51"x200'
\$179 (208100)	\$279 (208200)	\$349 (208000)

All of our cold films can be used on all cold laminators

Multi-Temperature Laminators

ARL Pro Laminators

Mounting Roll Laminator Available in 27" and 40" working widths. The ARL Pro works with mounting boards up to 1/4" thick and laminates with roll films up to 10 mils thick. The ARL Features:

- Variable speed from 1' to 5' per minute
- Dual heated rollers with top and/or bottom roller shut-off
- Adjustable temperature with maximum temperature of 300°
- Includes LED digital temperature display for greater control
- Uses film wound on 1" cores (3" adapter available)
- Works with pouch boards and roll films

ARL 2700 27" Laminator (ARLPRO27)	\$ 1,795
ARL 4000 40" Laminator (ARLPRO40)	\$ 2,895

Seal Ultra Laminators

Seal Ultra Plus Laminator Available in 44" and 62" working widths. The Seal Ultra Laminator works with boards up to 1/2" thick with speeds up to 10 feet per minute.

The Ultra series is available with a single-top heated roller or dual top and bottom heated rollers. Both models will complete the same tasks. Choose the dual heated version if you are going to encapsulate or adhere film to both sides of a print in larger volumes, allowing you to complete jobs faster. The dual heated roller also has pull rollers to assist the cooling of material.

Print Feed Gap Control

Both units feature a built-in stand, footswitch, take-up release liner mechanism, temperature settings and variable speed control.

Seal 44 Ultra Plus Dual Heated Laminator (630680)	\$6,795
Seal 44 Ultra 'S' Single Heated Laminator (630690)	\$5,995
Seal 62 Ultra Plus Dual Heated Laminator (630640)	\$8,495
Seal 62 Ultra 'S' Single Heated Laminator (630650)	\$7,695

Drytac JetMounter Sign Laminators

Drytac JetMounter 54SHA Features

- Variable speed from 2' to 10' per minute
- Uses all boards up to 1" thick
- Available Cold and with Heat Assist
- Comes complete with stand and foot pedal
- Includes LED digital pressure gauge for greater control

Dry Mounting Supplies

New Technology Acid Free Mounting Adhesive

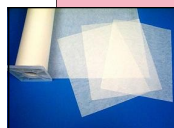

High Quality Dry Mount Adhesive made in the USA from all non-acidic components. Activates at 160°F. Coated on porous thin white paper. Good for sensitive materials such as Rice papers, fabrics and thin papers. Can also be used with ink jet papers.

Roll Size	24.5"x150'	36.5"x150'	40.5"x150'	48.5"x150'
Price	\$ 49 (NTMT24150)	\$ 69 (NTMT36150)	\$ 79 (NTMT42150)	\$95 (NTMT48150)

EZ Mount RC Photograph Adhesive

Dry Mount Adhesive specifically designed for mounting Resin Coated (RC) photographs and all lithographic prints. Adhesive activates at 180°F and is coated on both sides of a glassine porous paper.

Roll Size	20.5"x150'	24.5"x150'	40.5"x150'	42.5"x150'
Price	\$ 55 (EZP20150)	\$ 58 (EZP24150)	\$ 89 (EZP40150)	\$95 (EZP42150)

Cut Sheets	8"x10" (100 shts) (EZPSH810)	\$19.95
	11"x14" (100 shts) (EZPSH1114)	\$28.95

PolyMount Pure Adhesive Dry Mount Film

Solid roll of adhesive for mounting canvas and irregular surfaces.

	24.5"x90'	40.5"x90'	48.5"x90'
	\$ 54 (333805)	\$ 85 (333825)	\$ 99 (333835)

Coversheet Release Paper

Silicon Coated paper with high release. Extra thick for longer life. Protects Presses and roller from having any excess adhesive stick to the rollers or platens. Covers print during processing

Coated both sides	26"x60" (RP26602)	\$44.99	42"x90" (RP42902)	\$99.95
Coated one side	42"x90" (RP42901)	\$89.99		

Custom width rolls are available to save time and money

Heat Activated Mounting Boards (HAM)

Artgrafix HAM boards are designed to work in both roll laminators and dry mount presses. Made with safe low temperature adhesive which activates at 160 degrees.

Did you know.....

All foam boards can bow or warp when run through a heated laminator. The amount of bowing depends on the heat and pressure used during processing. **Generally, lower pressure and temperature will result in less bowing of your boards.** This is why we use adhesives which work at low temperatures. The maximum tolerance for bowing every three feet are 1" for foam board, 1/2" for Ryno board and 1/8" for Gator Board.

Foam Mounting boards with low temperature adhesive

Foam board with a low temperature adhesive activating at 160 degrees. Use either a dry mount press or roll laminator. We recommend running the boards in a roll laminator at 200 degrees at 2 feet per minute.

Item	Size	Quantity	Color	Price
940009	24" x 36"	25	White	\$ 129.95
940000	32" x 40"	25	White	\$ 199.95

623470G	40" x 60"	10	Black	\$ 629.00

Acid Free Foam Mounting Boards

Natural white Acid Free foam board with pH neutral adhesive. Foam boards are buffered to a minimum pH of 7.5 to absorb ambient acids. Adhesive activates at low 170 degree temperature and can be used in either a drymount press, pouch laminator or heated roll laminator. Adhesive has a wide compatibility range and can be used with Fine Art papers and coated photographic media. (10/box)

Item	Size	Thickness	Color	Price
MB18WHT-AF	18" x 24"	3/16"	White	\$ 49.00

MB36WHT-AF	36" x 48"	3/16"	White	\$ 175.00

All of our HAM Boards come with a Non-stick Cover Sheet

Document Pouch Lamination

Office Pouch Laminators

- Designed for general office lamination
- 9" and 13" Entry widths accommodate multiple document sizes
- Individual setting for lamination for 3, 5 and 7-mil thick pouches
- Cold lamination setting for sensitive papers
- Adjustable cooling guides for flat results
- Works with and without paper carriers
- Heats up in 5 minutes
- Includes starter film kit – 1 Year Factory Warranty

13" Laminator

Display

Permanent Paper Features

- **Paper like appearance.** The same smoothness and bright white color.
- **Print on both sides.** Opaque film prevents any bleed-through.
- **Easy to Cut and Trim.** Even punch holes for binding and report covers!
- **Ready to Use Designs.** Pre-perforated cards, hangers and more.
- **Easy to clean.** Print won't rub off. **Even safe to clean in a dishwasher!**
- **Weather Proof.** Withstands heat and water. Suitable for outdoor use.
- **Writeable.** Use either a pen or pencil (even underwater!)
- **Adhesive coated back available.** For instant displays—just peel and stick!
- **Extremely durable.** Tear proof, fade, **grease, solvent and scuff resistant.**
- **Saves Money.** Less expensive than Tyvek® and comparable materials.
- **Saves time.** No need to laminate.

Use to print with laser printers and copiers.

Permanent Paper has been tested on Xerox, HP, Canon, Ricoh and other Laser copiers. It will withstand heat and will work with most printers and copiers. Check your manual for the specification of maximum paper thickness, but most copiers will run both 5 (40 pound) and 8 mil (75 pound) thick papers.

Note: Permanent paper is not designed to be used in ink jet printers.

Use Permanent Paper for prints that need to last!

Adhesive Hangtabs Peel and stick to the back of your board to hang on a wall. Adhesive hag tab supports prints up to 1 1/2 pound in weight. Box of 100 **\$12.95**

Tack Cloths Slightly tacky, this lint free cloth is designed to wipe down foam board, GatorFoam™ and other mounting substrates. Reusable. Pack of 5 cloths **\$7.95.**

Roll Laminator Cleaning Kit includes petroleum based cleaner aggressive yet safe for silicon rolls, a Scotch-Brite pad for heavy build-up areas and a textured sponge for clean-up purposes. (960001) **\$39.95.**

Production Adhesive Eraser Dense rubber block for use when the laminator is warm to remove small deposits of adhesive. 4" Long (980100) **\$15.95.**

Particulate Media Cleaner This 12" wide roller is used to clean dust particles from your images or boards prior to lamination. Dust is removed from roller by adhesive pads. 12" PMC Roller (960003) **\$234.95** Cleaning pads (50) (960004) **\$34.95.**

Foam Board Corner Protectors Box of 100. Fits 3/16" plastic corner protectors. Keeps edges from being dented. Other thicknesses available. (880020) **\$12.95.**

Infrared Thermometer A convenient hand held thermometer to check the roll temperature of rollers to help monitor laminator performance (960002) **\$39.95.**

Foam Board Stands

For displaying pouch boards, adhesive boards and rigid graphic boards.

The Mightee Mount Held together with 2 wing nut screws, the Mightee Mount takes seconds to set-up and is almost impossible to knock over. Use for boards up to a 1/2" thick foam, gator, Sintra or any rigid board. For single and double-sided displays.
24" (FM-70630) \$49 36" (FM-70632) \$69 48" (FM-70634) \$89

Classic Banner Stand Adjusts from 36" to 96" high. 24" supports hold foam boards firmly in place. Choose from a fold-up base for travelling or the standard square base. The same banner stand can fit flexible graphics with the use of dowels. (70290-B) **\$79**

We also have Banner Stands for film and vinyl banners

Handheld Cutting Tools

Use these knives and cutting tools on a wide range of boards to make custom designs and shapes.

Circle Cutter

V-Groove Cutter

Circle, Bevel and Freestyle Cutting Tools

Cut boards with these tools to make creative displays

Freestyle Cutter Unique 'push' style cutter with ergonomic handle. Easy to see cut line makes cutting shapes easy

Circle Cutter Cut circles up to 6" in diameter with up to 1/2" thick boards

Bevel Cutter Cuts both 90° and 45° angles to make a finished look

V-Groove Cutter Cuts a V in foam board without cutting through the entire board to make angles and stand-up displays

AL-RB316	Rabbit Cutter	\$15.95

3 Ply Construction

Self-healing Cutting Mats

Protect work surfaces and insure consistent results

All of our cutting mats are made from multi-ply construction to insure self-healing. The middle layer is hard, supports the entire mat, and prevents knives from cutting through which protects the work table and keeps knives from becoming dull more quickly. The top and bottom layers are soft and easily flow back together after cutting to regain their new appearance. One inch grid pattern on all mats except where noted.

Table size mats

Item	Size	Price	Color
